As a result, we are working diligently to re-accommodate your group and make this one of your best travel experiences ever.

We don't want you worrying about the potholes in the road, only enjoying the journey ahead.

Joann and LTE will be working closely with your group leaders as we look at all the options.

Lawrence Block said, "Our happiest moments as tourists always seem to come when we stumble upon one thing, while in pursuit of something else."

I look forward to speaking with each of you onboard your journey.

All my best
